

EVERYTHING COUNTS
WHEN IT COMES TO GROWING
YOUR BUSINESS,
EVEN WHAT CANNOT
BE COUNTED.

EVERYTHING COUNTS WHEN IT COMES TO GROWING YOUR BUSINESS, EVEN WHAT CANNOT BE COUNTED.

Our consulting firm offers predictive **solutions for corporate growth that adapt as your business expands**. We operate in key strategic areas, such as **management consulting, processes, innovation, sustainability** and **human resources**.

Over the years, we have come to realise that a company will have the drive to expand its horizons and pursue increasingly ambitious and competitive goals provided the people who work there are happy and engaged. This is why **people are always the center of our focus**.

Continuous improvement, motivation, ethics, transparency and **pragmatism** are the driving values we promote in businesses along with a working culture focusing on the core assets of **Lean Thinking, Lean World Class[®], TPM, World Class Manufacturing** and **Six Sigma** and the partnership with Cordence Worldwide.

HUMAN APPROACH

**Since 1973,
supporting companies to grow.**

Founded in 1973, Bonfiglioli Consulting is today ranked among the top Italian managing consulting firms.

In 2008 we joined Cordence Worldwide, a strategic international partnership of leading consulting firms, to offer global coverage with local accountability. To continue our story of excellence, in 2010 Bonfiglioli Consulting successfully completed our first family business succession, becoming one of the few exceptions of family continuity in the consulting industry.

**Building a continuous
improvement culture.**

Our vision is driven by the will **to stir in any company a positive tension toward operational excellence**, thus leading to continuous growth and development. A continuous improvement culture aims at creating value and competitive advantage, particularly when it is shared throughout the entire organization. This is the reason why we strive to become **the landmark in operations world in Italy**. We seek to promote an enterprise culture based on continuous search for perfection and forward looking.

OUR STORY

VISION

MISSION

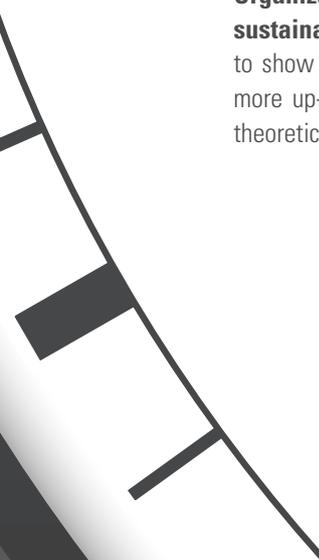

**World-class strategies
to promote development.**

We strive each day **to assist companies emerging on the market**, by implementing advanced management solutions and providing the best answers to the competitiveness challenges.

We build on quality of processes and human resources, on innovation and sustainability, to offer to our customers a distinguishing know-how and practical approaches to optimize performances.

CONTINUOUS IMPROVEMENT

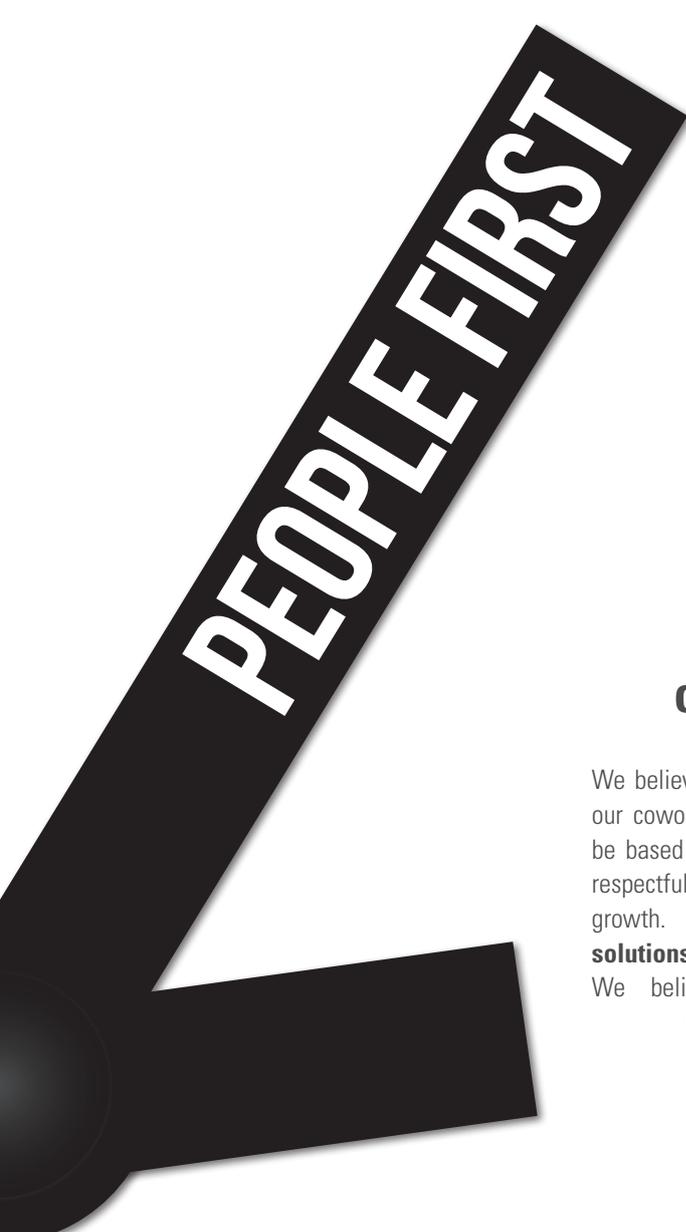

CONSULTANCY

**Pragmatic consultancy for
tangible results.**

Organization, processes, innovation and sustainability: these are our playgrounds. We want to show companies the way to become more efficient, more up-to-date, more eco-friendly. We avoid a purely theoretical approach.

Our contribution is practical, based on active involvement to solve problems and to support companies' engagement in a long-lasting change process.

PEOPLE FIRST

VALUES

**Honesty and integrity,
pragmatism and excellence,
customer satisfaction.**

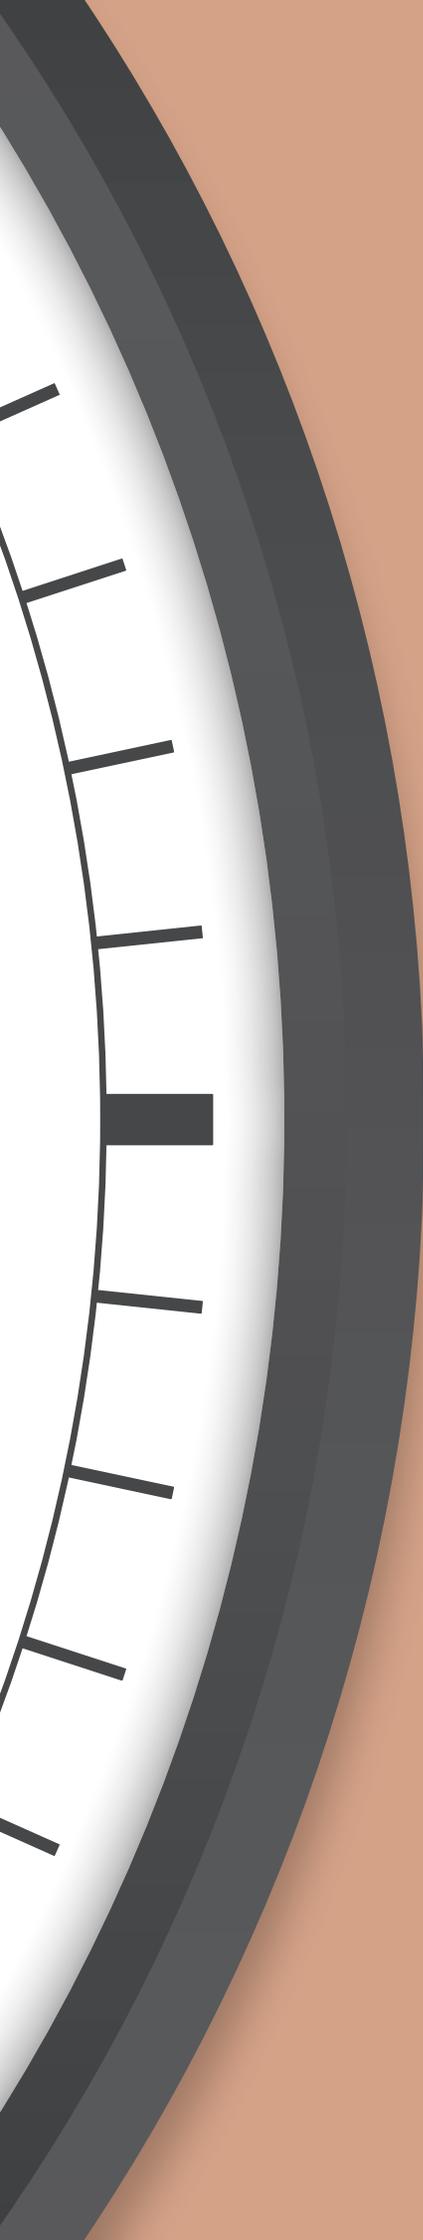

We believe that each relationship - with our customers, our coworkers and the government institutions - should be based on **loyalty and integrity**, since working in a respectful and trustful environment fosters everybody's growth. We offer **high-value adding tangible solutions**, to allow concrete and countable growth. We believe that **our customers deserve our best effort, since their success is also ours.**

**Where
know how
develops.**

RESEARCH CENTER AND LEAN FACTORY SCHOOL®

Living in an ever-changing world, we always have **to update our knowledge and our skills**. At Bonfiglioli Consulting we do so through our **Research Center, a department that monitors the national and global**

trends and develops innovative solutions. Developing our motto "**learning by doing**", we have founded our **Lean Factory School®**, a unique training opportunity where the Lean Thinking principles can be applied in the field in a mocked-up factory.

LEAN WORLD CLASS[®]

SCOPE AND SECTORS

Looking ahead driven by a World-Class enterprise vision.

The Lean World Class[®] approach is a structured approach to assist competitive development and continuous improvement in any company.

It represents the combination of Lean concepts and the World Class Manufacturing (WCM) methodology. This approach strives to develop best practices **to improve productivity in a more efficient way**. Processes **efficiency, innovation and sustainability** thus become key pillars to build a Lean World Class[®] organization able to overcome its boundaries towards a global vision of excellence.

Cross-functional and pluralistic consulting services.

In order to be really effective, a consultancy program can not be limited to few areas, but it has to encompass the whole organization.

For this reason we offer **all-round services ranging from our core competencies in the operations and product development processes, all the way up to strategy, IT and HR.**

Bonfiglioli Consulting is structured in several Competence Centers **to serve any industry, as well as the service and public sectors.**
